**CLEAR AND RELIABLE COMMUNICATION.
A BETTER REACTIVITY.
A SECURE ENVIRONMENT.**

HOSPITAL WORKERS

- Easier and more efficient process for welcoming and treating patients.
- Less effort and stress: communication without shouting, for a better work environment.
- Reduced feeling of isolation.
- Strengthening the social link between doctors and nursing staff by respecting social distancing.

MEDICAL INDUSTRY

- Compliance with hygiene and social distancing standards.
- Protection of your employees.
- Optimization of your manufacturing process thanks to a reduced operation time.
- Use of the system possible with all types of personal protective equipment (suit, mask, glove...).

MEDICAL TRANSPORT

- Reliable, clear and effective communication.
- Communication secured by military digital encryption.
- Preservation of the social link while respecting health standards.
- Permanent contact thanks to the full duplex mode.
